

# National Conference on Frontier Areas of Research and Applications Using Electron Microscopy

(March 16, 2018)

(Sponsored by Department of Science and Technology, Government of India under PURSE Program, Visva-Bharati)

**Venue: Lipika Auditorium, Visva-Bharati, Santiniketan**

The conference is being jointly organized by Siksha-Bhavana, the Institute of Science and Palli Siksha Bhavana, the Institute of Agriculture, Visva-Bharati, Santiniketan. Siksha-Bhavana since its establishment in 1972 has earned national and international reputation and is quite known for its quality teaching and research activities in various disciplines. It offers undergraduate and postgraduate teaching courses in various branches of science e.g. Botany, Zoology, Chemistry, Physics, Mathematics, Computer Sciences, Environmental Science, Biotechnology and Integrated Science. The Institute of Science has earned reputation worldwide for quality research and Ph.D programs in various disciplines as well as interdisciplinary science. On the other hand, Palli Siksha Bhavana since its establishment in 1963 is also quite reputed all over the world for its teaching, research and Ph.D programs in Agronomy, Agricultural Entomology, Agricultural Extension, Genetics & Plant Breeding, Plant Pathology, Soil Science and Agricultural Chemistry, Horticulture and Animal Science. Both the institutes have vibrant research activities sponsored by DST, CSIR, DAE, DBT, ICAR and other funding agencies.

The Institutes have a number of advanced research facilities fostering quality research in science and soon will have a central instrumentation centre with state of art scanning electron microscope and other facilities which will be a major boost towards frontier areas of research activities in Physical, Biological and Agricultural Science in Visva-Bharati.
